

777  
PROFITABLE NICHE IDEAS

Amazon  
Queen

# INTRODUCTION

Have you ever thought, “All the Good Ideas Are Taken?”

If so, well you’re in the right place...

In this report, I reveal **777 profitable niche ideas.**

They include the **7** Major Markets that most profitable niches fall into:

**DIY-Do It Yourself**

**Health**

**Hobbies**

**Food**

**Self-Improvement**

**Sports**

**Wealth**

**BONUS:** Extra **737** Niche ideas included

Total of **1,514** Profitable Niche Ideas

## What makes a great niche?

- Infinite amount of online consumers – The online marketplace is a huge market. This market is immune from stagnation as it grows exponentially every year. Mobile technology, cell phones, tablets, etc. will only help to increase the growing potential of the market.
- People want solutions – There are thousands of online forums for anything and everything imaginable. These forums provide platforms for your niche or in simpler terms, a group of like-minded people looking for the same thing.
- Solutions to personal needs – Most people genuinely want to look their best, feel their best and project a positive image. Unfortunately, or fortunately for you, as people age, health and wealth seems to become more of an issue. This creates a market that is continuously refreshing itself.
- People WILL spend money to find solutions – Financial health typically improves as people get older. Children are grown and out of the house, tuitions and mortgages are paid off. Nest eggs are maturing and becoming available. Just look at Viagra sales if you disagree! Almost a half a billion dollars a year!
- Most markets overlook and underserve the group of consumers with the most spending power – Many markets focus on the young consumers instead of the 50 plus crowd. Well that's good for us that know better. Here are some examples.

- **Baby supplies and toys** – Guess what? Regardless of any situation, babies are still being born and need care. Instead of just targeting parents, why not go after aunts, uncles and grandparents. These folks want to spoil the pants off the babies!
- **Cosmetics and health products** – It has been said that 50 is the new 30, people want to look good! Lotions, grooming kits, essential oils and tons of other products are hot sellers.
- **Craft supplies** – Who doesn't need a hobby? Especially if you are retired or semi-retired. This is a growing market. People enjoy having something to do. This is why Pinterest and How To Videos are so popular.
- **Food** – Really, a niche market, come on everybody eats! Well guess what, it is a tremendous niche market. Think of all the specialty diets out there these days: vegan, gluten free, organic, vegetarian, carnivore, (just kidding). But these are huge markets! People are willing to pay for the convenience of shopping from home and not having to venture out to the local market or health food store.
- **Clothing** – Statistics are showing traditional brick and mortar specialty clothing shops are struggling or closing. Why??? Online shopping, that's why. Big and Tall men's clothing, plus size women's clothing and petite women's clothing that doesn't make you like an oversized parochial third grader are huge online markets.

## What are your own interests and passions?

You're going to be spending a lot of time creating and building your business so it's **essential that you're passionate** about what you're doing, or at the very least – interested!

A great question I like to ask people is “*If you had to spend all of your time doing something, for no money – what would that be?*” This is a great way to really find your passion and you're taking money out of the equation. This is important because for a long time you're going to be working a lot of hours for little to no return.

While reviewing these niche ideas think of related products. The possibilities are endless...
